About the SSRIC

Founded in 1971, the Social Science Research & Instructional Council (the Council) is the oldest of the disciplinary councils in the California State University (CSU) system. The Council is an Affinity Group, as designated by the CSU Office of the Chancellor. With representatives from each of the CSU campuses, the Council is dedicated to assisting students and faculty in their learning, teaching, and research by:

- Providing a forum for sharing information about social science data and computer products
- Initiating and conducting training programs
- Recommending computerized social science projects in the CSU curriculum
- Encouraging the collection and distribution of social science data and computer-related instructional and research materials
- Advising CSU administrators on policies related to providing quantitative social science data for research and instruction
- Supporting CSU student, faculty, and staff users of subscription data bases from the Interuniversity Consortium for Political and Social Research (ICPSR) and the Roper Center, as well as of unrestricted databases
- Presenting workshops on use of these data, as well as on SPSS, SDA, and other topics as needed
- Offering value-added teaching resources, including modules, exercises, and online textbooks.
- Organizing and sponsoring the annual SSRIC Social Science Student Symposium (S4)!
